

How to reach your questions

Log in, open the question bank, run a mock exam. Eight steps — every button you press is circled in red.

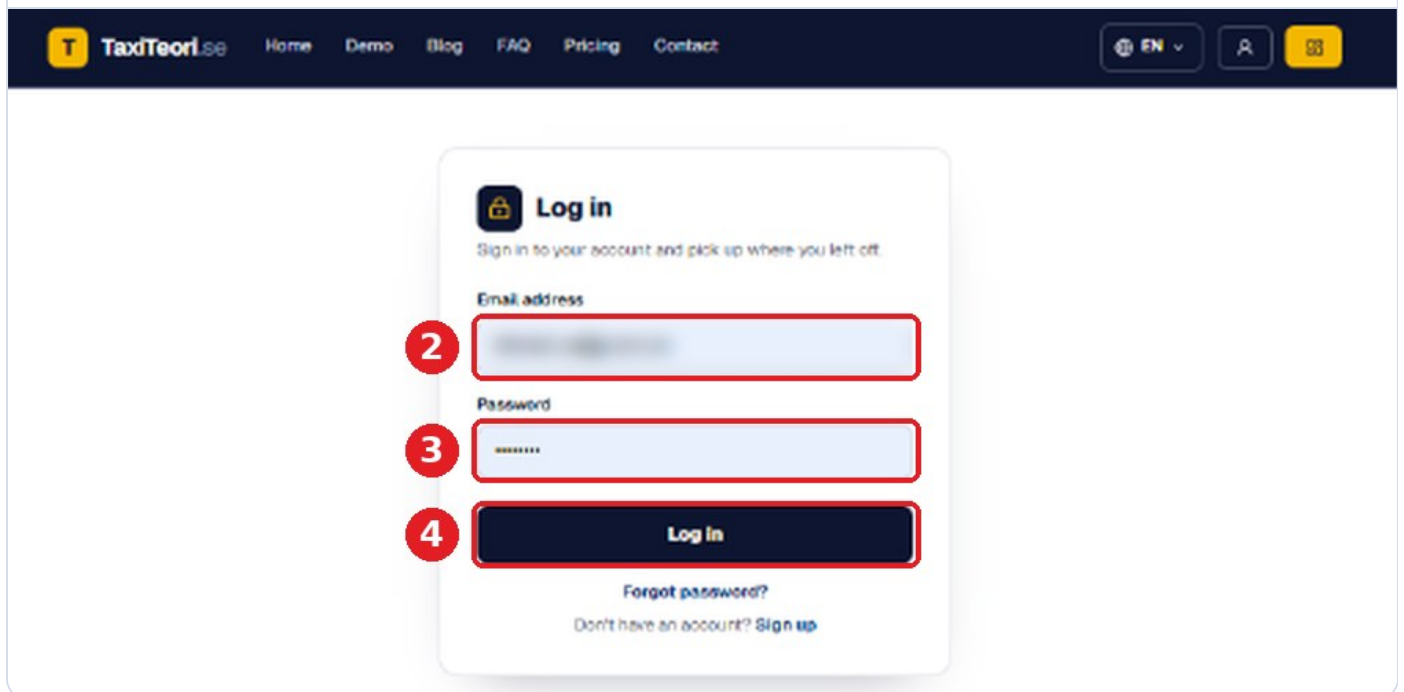

1 Open taxiteori.se and click the log-in button

Top right of every page — the button to the left of the yellow one. Before you sign in it says **Log in**; afterwards it shows a person. On a phone, open the menu first.

2 Type your email and password, then press Log in

Use the **exact email address you paid with**. 2 email · 3 password · 4 Log in.

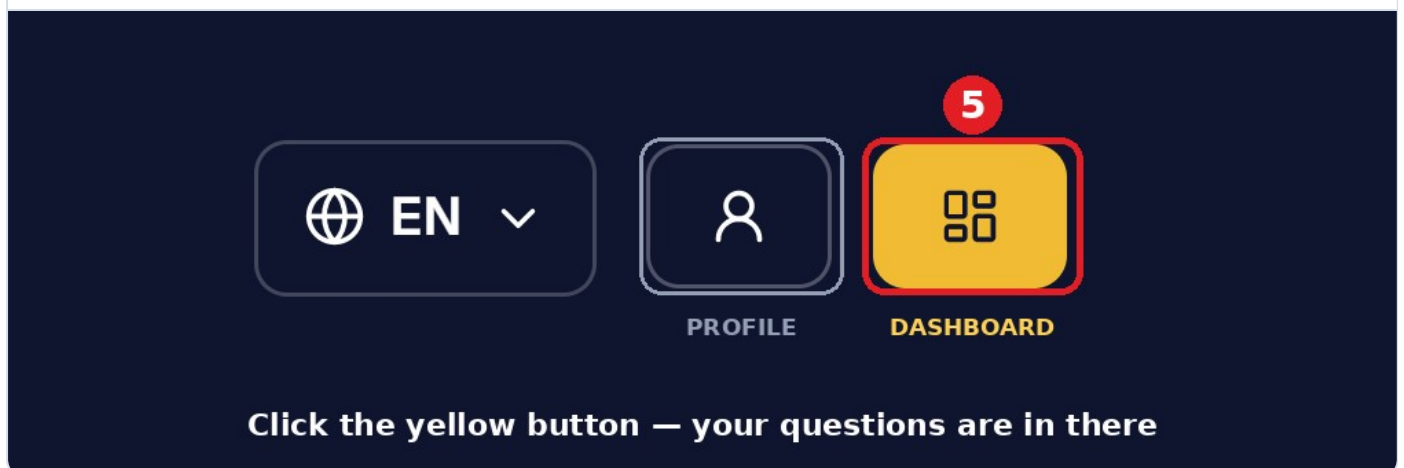

The screenshot shows the TaxTeorLive website header with navigation links: Home, Demo, Blog, FAQ, Pricing, and Contact. On the right, there are buttons for language (EN), user profile, and a yellow dashboard icon. The main content area features a 'Log in' form with the following elements:

- 4**: A red circle next to the 'Log in' button.

Below the 'Log in' button, there are links for 'Forgot password?' and 'Don't have an account? Sign up'.

3 Now click the yellow button — that is the Dashboard

This is the step most people miss. The grey button with the person is only your profile; the **yellow** button beside it opens your course. 5

4 You land on My course — this is the member area

Under your email it should say **Premium**. The two tabs you need: **6 Question bank** for practice, **7 Mock exams** for full tests.

Question overview

Logged in but the questions are missing?

1. **Click the yellow button, not the grey one.** The person icon opens your profile — it shows no questions. The yellow button top right is the Dashboard.
2. **Check the email address.** You must sign in with the same address you used when you paid. A second address means a second, empty account.
3. **Check the badge.** On My course, under your email, it must read **Premium**. If it reads Standard, the payment is not attached to the account you are signed in to.
4. **Check the dates.** Your access runs from the day of purchase, not from the first day you log in.

Still nothing? Email info@korkortakademi.se from the address you paid with — we will move the access onto the right account.
